

Environmental Responsibility Statement

The AV Dept values our clients, our people and our environment. This policy statement covers our operations in our warehouse at Marrickville and our activities Australia-wide.

We believe The AV Dept has a responsibility to the local and the wider Australian community to limit the negative impact our operations may have on the environment and to implement practical improvements.

To this end, we will:

- * comply with relevant Commonwealth and State legislation and applicable environmental policies and guidelines.
- * implement practical cost-effective measures to reduce waste
- * implement practical cost-effective measures to save on our usage of energy
- * implement practical cost-effective measures to save all other resources

To this end, we will:

- # identify and support the roles and responsibilities of key employees in relation to the implementation and maintenance of this policy
- # integrate environmental management in our general business policy framework
- # provide appropriate resources to support these commitments

To this end, we will:

- <><> make this policy statement publicly available on our website to encourage others to also consider their wider environmental footprint.
